SUPPLIES & TOOLS:

- DCWV 12"x12" stack: My Sunshine
- 1 skein of brown yarn
- 1/4" black elastic
- Personal die-cut machine with butterfly shape in multiple sizes
- 1/4" circle punch
- Non-toxic paper crafting adhesives including hot glue
- Scissors
- Craft knife
- Self healing mat
- Pencil
- Ruler
- Glitter, rhinestones & buttons, optional

DIRECTIONS:

1. Select 2 sheets of paper for each mask from the My Sunshine stack. Cut out an oversized butterfly from the 1st page using a personal die cut machine and/or template found on the internet. Cut out a smaller butterfly from the 2nd page using the same shape. Adhere the center of the smaller butterfly to the center of the oversized butterfly.
2. Wrap the yarn around the middle of the 2 butterflies several times and tie it off in a knot at the top, leaving 1½" of yarn on the ends to give the illusion of antennae.
3. Refer to photo. Draw 2 oblong shapes on each side for the eye holes. Cut each section using the craft knife to give the holes a clean edge. Attach the prints as shown to the top butterfly. Add glitter, rhinestones & buttons if desired.
4. Hold the butterfly shape to child's face to determine where the elastic should be attached. Pinch the sides; then lower the mask, making a quick mark in each spot before punching the holes in the paper. Attach the elastic through each one.
