SUPPLIES & TOOLS:

- Foamology™ :
Pull-Apart Tiles: Tangram Set
Rigid Panels: 24"x24"
- 28"x28" Black Felt
- Solid bright colored fabrics
- Velcro® fastener: hook side
- Scissors
- Pinking shears
- Ruler
- Glue gun & glue sticks
- Paper: Optional

DIRECTIONS:

PUZZLE BOARD:

1. Place black felt on a clean hard surface, and center one panel of 24"x24" Rigid Design Foam on top with the stickybase™ up.
2. Peel back the stickybase™ liner along one side of the foam, and wrap felt around it. Replace the liner, and repeat on the other 3 sides, wrapping like a present. At the corners, trim felt to reduce bulk, and secure on the stickybase. Use a glue gun to better secure corners.
3. Set aside the finished board with stickybase™ liner still in place. To create a movable puzzle board, adhere additional felt or paper to the back of the foam to finish it; then frame or hang it.

TANGRAM PUZZLE PIECES:

1. Select a 12"x12" tile from the set, and pull-apart into 7 pieces.
2. For each piece, select fabric and place face down on a clean hard surface. Position foam piece on top, and cut around the foam leaving a 2" edge along all sides.
3. Peel back stickybase™ liner along each side and wrap like a present, following same guidelines as listed in step 2.
4. Cut a second piece of fabric slightly smaller than the tile and adhere it to the back for a finished look. Repeat with the remaining 6 pieces.
5. Add hook-side Velcro® pieces to the backs of each of 6 pieces.

Skill Level 2: Some experience necessary

Crafting Time: 1-2 hrs
