

**Skill level 2
Fur Muff**

*Courtesy of Jo-Ann Stores,
Designed by Karen Edenfield*

Supplies:

- 5/8 yd. faux fur
- 1/2 yd. satin for lining
- 1/2 yd. Insul-Bright™ insulated lining
- Coordinating thread
- 1/2 yd. batting
- Velcro®

Cutting Directions:

1. Cut fur rectangle 15" across the grain by 20" with the grain
2. Cut lining fabric, Insul-Bright and batting 14" x 20"
3. Cut 2 pieces of lining fabric for pocket 5-1/2" x 10"

Directions:

(Seam allowances are 1/2" unless otherwise noted.)

Pocket:

1. With right sides together, sew the 2 pieces of pocket lining all around, leaving a small opening on one long side for turning. Turn and press.
2. With disappearing ink pen, draw lines from narrow end across muff lining fabric at 1" & 4" down. Align one long side of pocket edge with one drawn line and pin. Pin other side of pocket along other line making a tunnel. Topstitch close to edges leaving ends open. Place Velcro® at each end.

Muff:

1. Layer batting, Insul-Bright and satin lining, right side up, pin and baste all around so it can be handled as one piece.
2. Position fur so grain goes down. With right sides together, place lining with pocket end at top, pinning both long sides (fur is wider). Sew long sides.
3. To sew together, push one end of muff inside until both ends of muff are together with right sides of fabrics facing each other.
4. Pin edges together all around, matching seam lines. Sew all around, leaving opening along lining edge to turn.
5. Turn muff and sew opening closed. Turn the completed muff so fur is exposed. Since the lining is smaller, the fur will go around the ends and slightly inside. Seam is at bottom allowing the pocket to be against the body.

Hints for working with faux fur:

- With chalk or pen, mark cutting lines of the fur fabric on the back; then cut only the backing, but not through the fur.

Skill Level: Some experience helpful

Approximate Crafting Time: 1 1/2 hours

Due to seasonal nature of project, supplies are available for a limited time only. Please read all instructions prior to beginning; read and follow all manufacturers' instructions for all tools and materials used.
