Fast Fleece Scarf and Mittens Set

*Courtesy of Olfa,
Designed by Debra L.
Green*

Supplies:

- 3 coordinating colors of fleece, ¼ yard of each color
- ¼ yard of your choice for back of scarf
- ¼ yard of your choice for mittens
- 12 wt. cotton thread
- Temporary spray adhesive
- Lightweight water-soluble stabilizer

Tools:

- Olfa® Deluxe rotary cutter with pinking blade
- 12.5" square ruler
- 6" x 24" ruler
- 24" x 36" Olfa® self-healing rotary mat
- Sewing machine
- Size 90 topstitch needles

Directions:

Scarf Directions:

1. Using your Olfa® rotary cutter with pinking blade and 6" x 24" ruler, cut twelve 8" tall triangles – 4 triangles of each color of fleece.
2. Cut one rectangle 8" x 60" for back of scarf.
3. Spray back of scarf with temporary spray adhesive, on the wrong side, and lay triangles in pattern as shown in photograph. Cut one triangle in half and place one half at each end of scarf.
4. Using a scallop stitch and heavy weight thread on your sewing machine, stitch completely around outside edge of scarf. Place water-soluble stabilizer on top of fleece, under presser foot, to keep stitches from sinking into fleece and disappearing. You may also use 2 strands of regular thread in place of the 12 wt. thread.
5. Stitch around the inside edge of each triangle with the scallop stitch to secure triangles to back.
6. To remove stabilizer, simply rinse scarf in warm water and let dry.

Mittens Directions:

1. To make mitten pattern, trace around the perimeter of your hand, keeping fingers together and thumb extended.
2. Cut out 4 mitten halves using your Olfa rotary cutter with pinking blade.
3. On mitten fronts, stitch 3 rows of decorative scallop stitches at the wrist. Place water-soluble stabilizer on top of fleece to prevent stitches from disappearing.
4. Sew mitten front to back, wrong sides together, using a ¼" seam allowance.

Skill Level: Some experience helpful

Approximate Crafting Time: 2 hours

Due to seasonal nature of project, supplies are available for a limited time only. Please read all instructions prior to beginning; read and follow all manufacturers' instructions for all tools and materials used. Provide adult supervision if children participate in this and all craft projects.
