

no-sew shade project ideas

**Supplies:**

No-Sew Shade Kit from June Tailor®  
1-2/3 yd. Main fabric  
1/3 yd. contrast fabric

1-1/4 yd. lip cord  
1 Large cover button  
Coordinating fabric for button

**Directions:**

Cut a 12” strip from length of fusible shade material and set aside.

Follow manufacturer’s instructions for sizing fabric and preparing shade material. To create an angled profile edge in place of profile edges included with your shade kit, locate and mark the center point (left to right) on bottom of finished shade size. Mark points 7” up from bottom edge at sides of finished shade. Draw a line from bottom center point to side points creating a “v” profile. You will not create a pull slat pocket on this section of shade. Complete fusing and cutting of shade per instructions. Using sewing machine, fusible tape or hot glue, attach lip cord to bottom edge of shade. Use a small piece of clear transparent tape at ends of cord to prevent unraveling.

Fuse the reserved 12” strip of shade material to the contrast fabric per instructions. Trim width to match that of finished shade width. Fold bottom edge under 1-1/2” and press. Using sewing machine, fusible tape or hot glue, create a pocket for the pull slat.

Using sewing machine, fusible tape or hot glue, attach contrast fabric to shade making sure to align side edges.

Fabric cover button and stitch or hot glue in place.

Skill Level: Some experience helpful

Due to seasonal nature of project, supplies are available for a limited time only. Please read all instructions prior to beginning; read and follow all manufacturers’ instructions for all tools and materials used. Provide adult supervision if children participate in this and all craft projects.
