SUPPLIES & TOOLS:

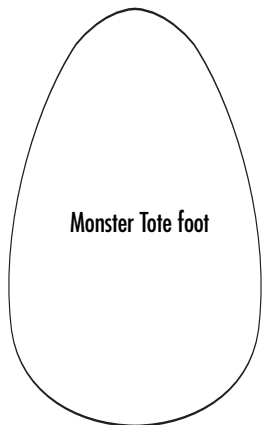

- 3/8 yd. Purple pre-quilted fabric
- 2/3 yd. 3/4" Black Velcro®
- Thread: purple, lime green, black
- Pinking shears
- Serger, optional
- Black Sharpie® marker
- 4 Black chenille stems
- 9"x12" Craft foam sheets: One each: Red, white, purple, green, yellow, black, blue, pink, coral
Two: orange
- 1/8 yd. Lime green fleece
- 1/4 yd. HeatnBond® Lite
- Basic sewing supplies
- Sewing machine
- Fabri-Tac® glue
- Red dimensional fabric paint

DIRECTIONS FOR BAG:

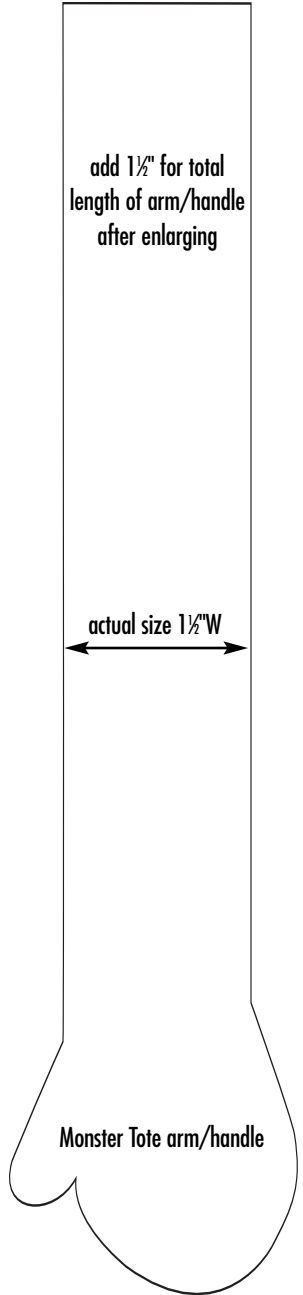

1. Cut two 12"x14" pieces of quilted fabric. With right pieces of fabric together, sew or serge the two long sides and one short side. Using sewing machine or serger, finish all edges with zig-zag stitch, including the open edge.
2. To hem the top edge, turn under 2" and sew.
3. Match up one side seam and the bottom seam on the inside, then make a box corner by sewing across and forming a point. Repeat on other side.
4. Cut HeatnBond® in half lengthwise and place side by side face down on one end of the wrong side of fleece. Press, cool and peel off paper backing. Fold other end of fleece over and press, fusing the two layers of fleece together. Use the pattern to cut two arms and two feet out of the fused fleece.
5. Top stitch around fleece pieces with green thread, staying close to the edge.
6. Stitch arms on side of bag at hem edge, making sure hands are facing the same way. Where the hands overlap, sew Velcro® to form the bag handle.
7. Glue the feet in place on the bottom of the bag.

DIRECTIONS FOR FACES:

1. Follow patterns to cut craft foam for the face parts.
2. Use black marker to detail ears and mouth on one face; red fabric paint to create bloodshot eyes on another face.
3. Using pictures for reference, glue face pieces together and allow to dry.
4. With hook side down, glue a 1/2" to 3/4" piece of Velcro® to bag for locations of eyes, ears, nose and mouth. Glue the loop side of the Velcro®, 1/2" to 3/4" in size, to the back of each of the face pieces.
5. Allow to dry thoroughly before "playing" with the faces.

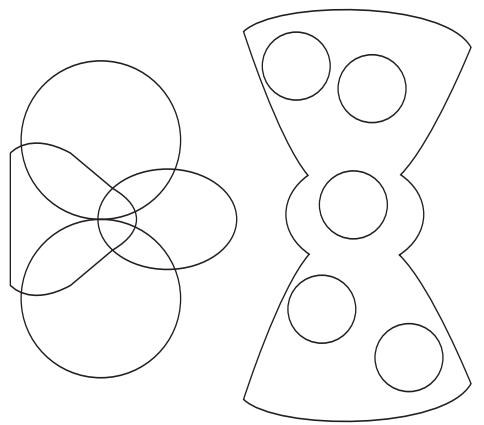

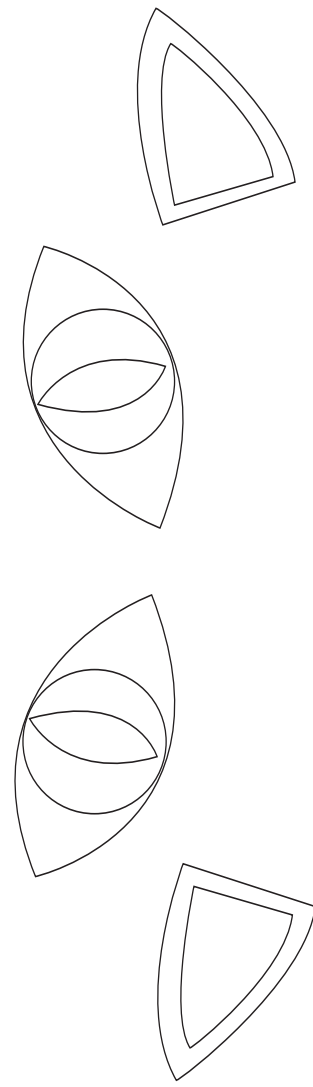

Monster Tote foot

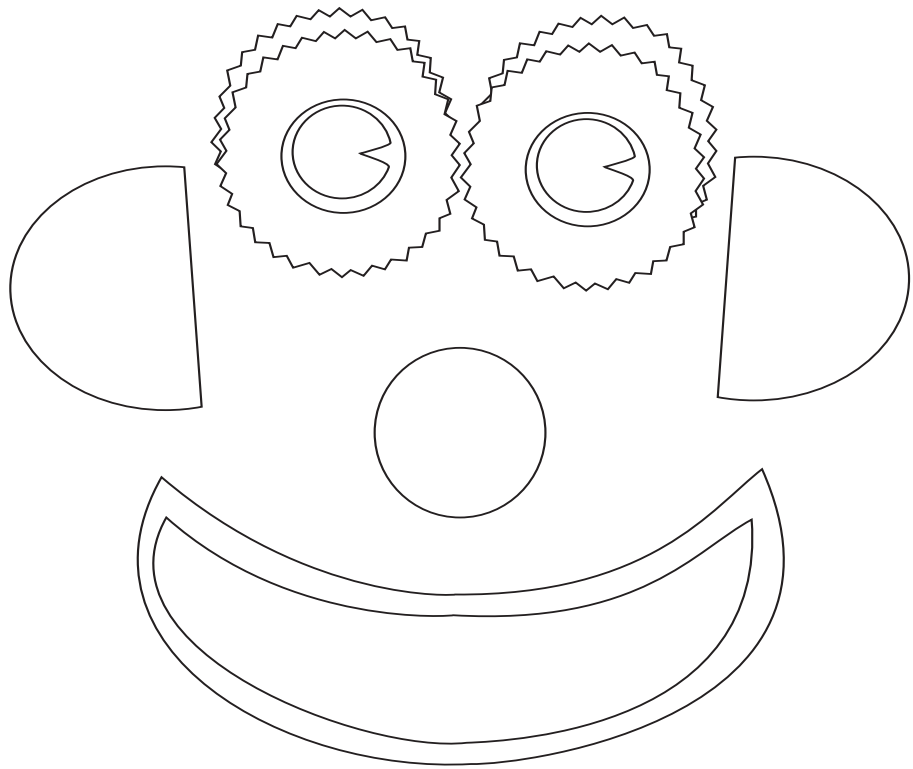

add 1/2" for total length of arm/handle after enlarging

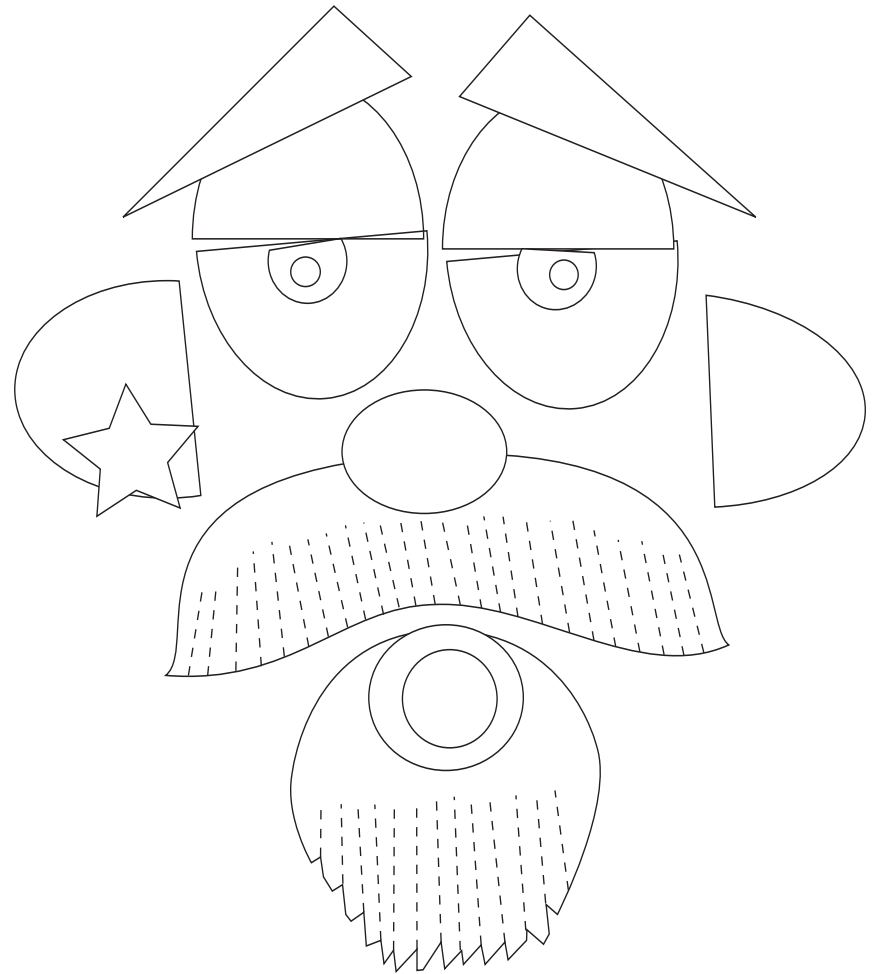

actual size 1 1/2"W
