## TIPS

---

Whether you want a completely handmade wedding or just want to sprinkle in personalized touches here and there, this list helps you play to your strengths and gives you an idea of the types of things that can be DIYed for your big day.

Some things—like music & entertainment, photography, and food—should probably be left to professionals. You could be an amazing chef, but taking the day off from your day-job is definitely a good idea on your wedding day.

Be realistic about what you can take on, but most of all, have fun! Personalizing your wedding will make it a day to remember for you and your guests.
