## hexagon patterned shoes

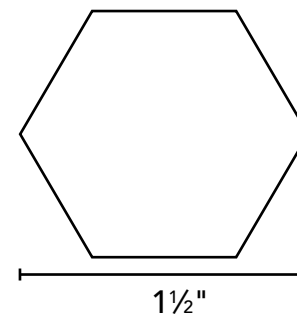

### SUPPLIES & TOOLS:

- White canvas slip on shoes
- Marvy®/Uchida DecoFabric  
Markers: light blue, red, yellow, black, blue
- Marvy®/Uchida Erasable Fabric  
Marker: pink
- Provided hexagon template
- Computer & printer
- Scissors

### DIRECTIONS:

1. Print a 1-1/2" wide hexagon pattern (enlarge or shrink pattern as needed for shoe size). Cut out shape.
2. Start at the front top of the shoe. Place the shape on the shoe with one of the sides facing the top. Trace the pattern on the shoe with the erasable fabric marker. Place the pattern 1/4" below the first hexagon and trace the pattern again. Repeat the pattern below the previous hexagon and off to the sides. Make sure to leave 1/4" space between each hexagon. The design will begin to look like a honeycomb.
3. Leave the sides of the shoe white. Center the pattern at the back of the shoe. Repeat the pattern on the back.
4. Color each hexagon with the top being light blue, center red, and bottom yellow. Then the sides yellow and blue. Allow the colors to dry. Add another coat of color to make it vibrant. Allow to dry.
5. Outline each hexagon with black.
6. Make dashes between the hexagons with blue markers.

**Skill Level:** Some experience necessary

**Crafting Time:** 1-2 hrs
