Make unique & creative gifts

Place Card Holder

Using floral or jewelry wire, create place card holders that will add sparkle to a special event. Just wrap the wire around the screw and make a series of loops to slide the card into. Keep them for your next dinner party or send them away with guests as personalized party favors for favorite postcards or photos.

Decorative Jars

Attach knobs to the tops of jars, decorative bottles and boxes to add a little whimsy to a space. Use an awl to punch holes in the top of lids, and a small hand saw to shorten the screws if needed.

Organize with style

Functional Decor

Use decorative hooks and knobs to create fun storage solutions. You can create racks or mount knobs directly to your walls.

Create a gallery in any room

Picture Hangers

To make a hanging gallery, mark the wall where the knobs will hang, making sure to leave room for the frames. Switch the nuts out for appropriately-sized anchor bolts, and use a power drill and drill bit to create holes on the marks. Slide the anchor bolts in the holes, and screw the knobs into them.

Re-purpose and revive

Decorative Storage

Give old boxes, baskets and crates a new life by adding decorative drawer pulls to create appealing storage solutions.

Decorative Tray

Attach drawer pulls to the ends of slate, wood or other material to create one-of-a-kind trays. Reflect your personality by switching out the knobs on a favorite dresser or cabinet.

Fabulous and functional

Jewelry Organization

Try this project to keep jewelry untangled, easy-to-find and even on display. Simply cover a wood board with a favorite fabric. Arrange knobs, hooks or pulls where desired and mark the location of the screws. Use a power drill to create holes for the screws and attach the hardware. Shorten screws if needed.
