3. Using water soluble marker, draw "awake" eyes and mouth on one of two pattern pieces A (body) and "asleep" eyes and mouth on second piece. Trace over markings using fabric markers.

4. Following manufacturer's instructions, apply Pellon® EZ-Steam II™ to wrong side of pattern pieces B (hair front).

5. Adhere pattern pieces B to pattern pieces A, aligning marked center lines.

6. Topstitch hair to body, stitching close to raw edges of pattern piece B.

7. Place pieces C (hair back) wrong sides together and stitch close to bottom raw edge. Tip: If using knits or other fabric with stretch, adhere the pieces to each other with Pellon® EZ-Steam™ before stitching.

8. Place pattern pieces together as follows, aligning all marked center lines: piece A "awake" right side up, piece C, piece A "asleep" wrong side up. Tip: Make sure that top edges are aligned so that no layers will be missed in the next step!

9. Pin and stitch around edges using a $\frac{3}{8}$ " seam allowance, leaving a space for turning. Trim seam allowances and clip curves. OR, use your overlock foot (shown below) for an extra secure seam.

10. Turn right sides out and stuff with polyester stuffing.

11. Slip-stitch opening closed.
